

ORDINANCE NO. 2011-012
REGULATING SMOKING IN ALL WORKPLACES AND PUBLIC PLACES

WHEREAS, numerous studies have found that tobacco smoke is a major contributor to indoor pollution, and that breathing secondhand smoke is a cause of disease; including lung cancer in non-smokers; and

WHEREAS, people at special risk to secondhand smoke include children, the elderly, individuals with cardiovascular disease or impaired respiratory function, including asthmatics, and those with obstructive airway disease; and

WHEREAS, health hazards induced by breathing secondhand smoke include lung cancer, heart disease, respiratory infection, decreased respiratory function, and bronchospasm; and

WHEREAS, Delaware County finds and declares that the purposes of this ordinance are: 1) to protect the public health and welfare by prohibiting smoking in public places, and places of employment; and 2) to guarantee the right of nonsmokers to breathe smoke-free air, and to recognize that the need to breathe smoke-free air shall have priority over the desire to smoke.

WHEREAS, The 2006 U.S. Surgeon General's Report, *The Health Consequences of Involuntary Exposure to Tobacco Smoke*, has concluded that (1) secondhand smoke exposure causes disease and premature death in children and adults who do not smoke; (2) children exposed to secondhand smoke are at an increased risk for sudden infant death syndrome (SIDS), acute respiratory problems, ear infections, and asthma attacks, and that smoking by parents causes respiratory symptoms and slows lung growth in their children; (3) exposure of adults to secondhand smoke has immediate adverse effects on the cardiovascular system and causes coronary heart disease and lung cancer; (4) there is no risk-free level of exposure to secondhand smoke; (5) establishing smokefree workplaces is the only effective way to ensure that secondhand smoke exposure does not occur in the workplace, because ventilation and other air cleaning technologies cannot completely control for exposure of nonsmokers to secondhand smoke; and (6) evidence from peer-reviewed studies shows that smokefree policies and laws do not have an adverse economic impact on the hospitality industry. (U.S. Department of Health and Human Services. *The Health Consequences of Involuntary Exposure to Tobacco Smoke: A Report of the Surgeon General*.
