**FOR IMMEDIATE RELEASE:**

## **NEW TOTALS: NO NEW CASES OF COVID-19 IDENTIFIED IN DELAWARE COUNTY**

**DELAWARE COUNTY, IN-** The Delaware County Health Department (DCHD) reports Wednesday of no new individuals within Delaware County having tested positive through lab testing for SARS-CoV-2 (the virus that causes COVID-19 infection); maintaining the latest totals at 215 confirmed cases and 20 attributed deaths.

Delaware County Health Officer Donna Wilkins, MD reports new data that 13 out of Delaware County's 20 COVID-19 attributed deaths having occurred among residents of long-term care facilities. The average age of these residents being 78, with an age range of 62-95 years. No additional information about the patients will be released at this time due to privacy laws.

The DCHD continues working closely with the local and state officials, including staff of local care facilities, to ensure that contacts of the patients are identified and that all infection control protocols are being followed.

Human coronaviruses most commonly spread from an infected person to others through:

- Respiratory droplets released into the air by coughing and sneezing;
- Close personal contact, such as touching or shaking hands;
- Touching an object or surface with the virus on it, then touching your mouth, nose, or eyes before washing your hands; and
- Rarely, fecal contamination.

The best way to protect yourself from any respiratory illness, including the flu, is to:

- Wash your hands often w/ soap & water for at least 20 seconds. If soap & water are not available, use alcohol-based hand sanitizer.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact (within 6 feet) with people who are sick.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

The Indiana State Department of Health (ISDH) provides statewide updates as new information becomes available. Visit the ISDH website at [in.gov/coronavirus](http://in.gov/coronavirus) for the most up-to-date information on COVID-19 in Indiana.

For updated local information: The Delaware County Emergency Management Agency, in collaboration with the Delaware County GIS Department, have created and are maintaining a central location for local updates. Please visit the Delaware County, Indiana Coronavirus Hub at [www.dcema.com](http://www.dcema.com).
