I. INTRODUCTION

A. Statement of Intent and Project Overview

Delaware County, Indiana, an Indiana county duly organized pursuant to the laws of the State of Indiana (“County”), issues this Revised Request for Proposal (“RRFP”) to prospective entities interested in submitting a proposal (“Offerors”) to (a) develop, design, build, and finance the County’s Mental Health and Rehabilitation (referred to herein as either “Rehab Facility” or “Project”); as more particularly defined herein, all pursuant to a public-private agreement to be entered into between the County and the recommended Offeror (“Developer”) in accordance with Ind. Code §5-23 et seq., (the “Act”).

B. Delaware County Mental Health and Rehabilitation Center

The Delaware County Board has moved the Delaware County Justice Center and Jail facilities into a new facility located at 3100 N. Tillotson Ave. The Board of Commissioners originally contemplated a Mental Health and Rehabilitation Center to be built in the new facility and become a part of mental health treatment environment in Muncie and Delaware County at a point in the future. The onset of the COVID-19 pandemic that was suffered by everyone in the United States exposed the need for more immediate mental health facilities and rehabilitation services in the community. Delaware County experienced a significant increase in the number and severity of mental health issues that needed to be addressed. Generally local law enforcement was contacted to deal with these types of issues because of a lack of resources in the community. Often times law enforcement’s only option was to place people with mental health issues in the Delaware County Jail instead of being treated as needed. More and more often law enforcement was being called by family members, friends, neighbors or even strangers to help deal with someone that was having a mental health crisis. Additionally, during the course of the pandemic, Delaware County law enforcement as well as emergency medical services were being overrun as a result of a rapid influx of substance abuse incidents. Both mental health and substance abuse matters had overwhelmed an already above capacity health care system treating people with COVID-19 infections. People in Delaware County were dying not only COVID-19, but also mental health and/or substance abuse problems that could not be adequately treated.

The Board of Commissioners recognized that there was an acute need for their contemplated mental health and rehabilitation facility because of the pandemic, sooner rather than later. The Board of Commissioners of Delaware County have committed money from the American Rescue Plan to help construct and operate a mental health and substance abuse rehabilitation center at the existing Justice Center. It is anticipated that the Project may involve both renovation and new construction.

A. Goals and Objectives of the Project

The County now seeks private involvement in developing the Project. The Project Construction Developer’s obligations include: (i) Project site engineering, (ii) renovation of existing improvements on the Project site, (iii) development and construction of the mental health rehabilitation and substance abuse components, including renovations, in accordance with the conditions described in this RRFP, (iv) purchasing certain furnishings, fixtures and equipment (“FF&E”). The successful Project Construction Developer shall work with Services Developer on the design, renovation and selection of the fixtures and FF&E for the facility.

The procurement process is designed to encourage innovative and creative plans to complete the Project. Through this public-private partnership procurement, the County seeks (1) budget certainty (2) reduced financial risk from cost overruns; (2) innovative approaches to financing; (3) an aggressively expedited design and construction timeline; (4) innovative approaches to design, development, and construction of the Project.

B. Overview of Procurement Process

The Act authorizes the County to solicit responses to a request for proposals, conduct discussions with Offerors for the purpose of clarification to assure full understanding of and responsiveness to the solicitation requirements, to receive best and final offers with responsible Offerors who submit proposals that are determined to be reasonably acceptable for being selected for a public-private agreement, and to enter into a Build, Operate, Transfer (BOT) agreement with the Developer to design, construct, operate, maintain, and finance a public facility on behalf of the County and to transfer the public facility back to the County at an established future date (“BOT Agreement”).

The County’s procurement process will be divided into the following, sequential steps:

1. Review RRF Responses.

The County will review responses to this RRF to determine Offerors’ experience, expertise, proposed approach and conceptual design and capacity to satisfy the terms of a BOT Agreement for the Project and thereby determine the responsibility and responsiveness of each Offeror. If an Offeror is not Responsive or Responsible, the County may, in its sole discretion, disqualify that Offeror from further consideration.

2. County Recommends Offeror as its Developer for the Project and the Parties Enter into a BOT Agreement.

After the best and final offers from responsible Offerors have been received and scored, the County shall either make a recommendation of an Offeror as its Developer for the Project to its Board of Commissioners (“Board”) or, in its sole discretion, the County may terminate the RRF process. The Board shall entertain the County’s recommendation to enter into a BOT Agreement at a duly noticed public hearing. Any such notice shall include a statement indicating that the proposals and an explanation of the basis upon which the recommendation is being made are available for public inspection and copying at the principal office of the Board during regular business hours.

At all stages, up and until the best and final offers from the responsible Offerors have been received, the County reserves, in its sole discretion, the right, but not the obligation, to discuss this RRF with Offerors to clarify the Offerors’ understanding of and responsiveness to the solicitation requirements and to negotiate with Responsive and Responsible Offerors.

Since this Project will be procured utilizing Ind. Code 5-23, it is not considered to utilize “public funds”, as defined in Ind. Code 5-22-2-23. As a result, the Developer will not be required to comply with the public works statute (Ind. Code 36-1-12).

II. PROJECT SPECIFICATIONS

A. Project Overview

The developer's Project obligations include: (i) renovation of the existing improvements on the project site, (ii) project site engineering, (iii) development and construction of the mental health and substance abuse area and other components, including renovations, in accordance with the conditions described in this RRF, and (iv) purchasing certain furnishings, fixtures and equipment ("FF&E"). To the extent possible, all proposals should incorporate the criteria described in Appendix A to this RRF ("project criteria"). The project criteria have been developed to provide Offerors guidance as to the County's objectives for the project, including use, space, price, time, site, lifecycle and expansion possibilities.
